## BOY BITES HIS TONGUE OFF

## KILLED IN A QUARREL

Louisville, July 31.—At a sawmill at Pleasure Ridge park two of the mill hands engaged in a quarrel, and Hugh Vitto, eighteen, shot and killed Walter Shepherd. He escaped.

## SHOT HIS SWEETHEART

Middlesboro, July 31.—Wilson Hibbitt, of Clay county, shot and killed Anna Jackson aged 18, his sweetheart. It is claimed that the shooting was accidental.

## BIT OFF TONGUE

Bowling Green, July 31.—Eight year old Willie Haynes fell from the roof, striking his chin and biting his tongue in two.

## KILLED BY A KICK

Hardtown, July 31.—Mark Hilliard, aged 17, was killed by being kicked by a horse.

## MUSKET EXPLODED

Hopkinsville, July 31.—John Deacon, a prominent farmer, had his head blown off this morning by the explosion of his musket.

## BOLTERS' CONVENTION

## TION NO GOOD

Columbus, O., July 31.—The Bryan bolters state convention here today was a fizzle, and there were not one hundred men present. They will, however, name a complete state ticket.

## REVOLUTION THREAT

## ENED IN VENEZUELA

Washington, July 31.—Venezuelan advisers say that another revolution is imminent with the whole country threatening an uprising against President Castro.

## CROPS DAMAGED

## CAPT. BOB OWEN FINDS MANY OF THEM IN BAD SHAPE

Captain Bob Owen returned from St. Genevieve, Mo., last night, where he took 22 teams to work on a railroad being built out of that place. He closely observed the condition of crops from St. Genevieve down to this point. He says that the corn crop is a total loss and that few sections of the country that he passed through can save even half a crop. The wheat crop, however, was not much damaged and most of the farmers had it threshed and stored away. The potato crop and most of the fruit has been very badly damaged and the drought interfered with the work on the railroad very much. Several teams were overheated and the laborers found it necessary to lay down their tools until late in the evening when the heat was not so bad.

## DECORATORS HERE

## THE COLOR SCHEME WILL BE STARTED AT ONCE AT THE KENTUCKY

Decorator Halbach, of Halbach and Mitchell, the Chicago decorators and an assistant have arrived in the city and will begin the color scheme at The Kentucky at once. In a few days several additional decorators will arrive, the present force being simply to begin the work.

## INSPECTION TOMORROW

Mayor Lang will call a meeting of the city council tomorrow morning at eight o'clock to go over to the intake pipe of the water company and inspect it. All citizens who desire are invited to accompany the council. The crowd will go over on the Brookhill. The inspection was deferred sometime ago on account of the stage of the river, which is now sufficiently low to permit the inspection.

## WAS RELEASED

A boy named Albert Atkins was arrested last night on a charge of taking two rings and \$2.25 from the clothing of four boys who were in swimming down below the incline last evening. The court agreed to release him on condition that he return the rings, which he did, and there was no prosecution.

## There are no new developments in the democratic county committee middle. Nothing will probably be done until after the senatorial convention August 10.

## IS NOW ON, IN EARNEST

Opening of Union Mills to Non-Union Men Said to be the Bone of Contention at Pittsburg.

## GREAT DISAPPOINTMENT OVER IT

Pittsburg, July 31.—Disappointment and apprehension pervade Pittsburg because of the failure of the executive board of the Amalgamated Association of iron, steel and tin workers to ratify the peace proposals arranged at the conference in New York last Saturday, between the national officers of the Amalgamated Ass'n and Messrs. Morgan, Schwab and Gary, representing the United States Steel corporation. After a session lasting from 9:30 a. m. until 6:30 p. m. the meeting adjourned without arriving at any conclusion so far as known, to meet again today.

The protracted session indicates that the board is not satisfied with the provisions of the compromise measure and unless some modifications are made their ratification is doubtful. The opening of union mills to non-union workmen is the point which is believed the board hesitates to accept and the long distance telephone between New York and Pittsburg was worked frequently to get a modification of this clause. The workmen hold that this would give the mill owners full opportunity of crushing the union without a strike by finding excuses to discharge union men and then fill their places with non-unionists. Another rock of dissension is said to be the retention in their present jobs of the men who were known as strike breakers at the various mills during the strike. It is said that these men have been promised the protection of the manufacturers in case of a settlement and that they will not concede their dismissal at the request of the organization. The workers, it is said, are willing to declare the mills now working non-union open mills but strenuously object to having all the mills of the combine classified as open mills.

It is understood this afternoon that the conference has rejected the agreement of President Schaffer with the mill owners, and every steel mill will be asked to join the strike.

## TEACHERS ASSIGNMENT.

MEETING OF THE DISTRICT SCHOOL COMMITTEE THIS EVENING.

The district school committee will meet this evening to assign the teachers to the various places in the schools. The report will be presented at the regular meeting of the board next Tuesday night and doubtless ratified. Supt. Hatfield will meet with the committee and his suggestions be followed in making the assignments. It is predicted that there will be few, if any, changes.

## A MOUNTAIN TOURIST.

The Denver & Rio Grande Railroad publishes a series of useful illustrated pamphlets, all of which may be obtained by writing S. K. Hooper, General Passenger and Ticket Agent, Denver, Colo.

## GETS A GOOD JOB.

Washington, July 31.—C. A. Conrad, of Somerset, Ky., has been appointed chief clerk to Fourth Assistant Postmaster Bristow, to succeed M. O. Chance, who recently resigned to become private secretary to Secretary Root.

Conrad came to Washington in September, 1895, to accept a position in the pension office. He was transferred to the postoffice department in 1896, and was made private secretary to Bristow in 1899. His new position pays \$2,000 per annum.

## GENERAL WEATHER REPORT.

Jenkins & Co., brokers, 109 Broadway, received the following weather report today from Washington: High temperatures generally in northwest and west. Clear in spring wheat states. Light showers in Nebraska, Illinois, Kansas and Missouri. Heavy showers in Ohio and eastward. Temperature 7 a. m. 48 to 64 in extreme north, 56 to 74 Dakota and Minnesota, 62 to 70 in Nebraska and Iowa, 66 to 74 Kansas, Missouri, Illinois and Indiana. Map seems to indicate clear and warmer weather.

## GOOD START

The Abstract and Title Company Incorporated This Morning.

## THE OFFICERS HAVE BEEN ELECTED AND THE PROMISES OF SUCCESS ARE VERY GOOD.

Articles of incorporation of the McCracken county Abstract and Title company were filed this morning in the county clerk's office. The following are the stockholders and the number of the 200 shares of the \$10,000 capital stock they hold: A. C. Fisher 65, W. F. Paxton 7, B. H. Scott 4, E. H. Puryear 96, F. M. Fisher 7, Joseph Friedman 7, Loretta Tully 7 and W. F. Katterjohn 7.

The object and business of the company is to examine and abstract titles to land in the city or in the county and the company will begin business on the 5th of August.

Mr. W. F. Paxton has been elected president, B. H. Scott vice president, F. M. Fisher secretary and treasurer and E. H. Puryear abstractor and attorney.

This is the first company to do this class of business ever organized in this city and will no doubt meet with good success.

## 92 TODAY.

THE WEATHER INDICATIONS NOT VERY PROMISING TODAY.

The government thermometer registered 92 at 2 o'clock this afternoon. It will probably go a little higher. The lowest registered today was 71 early this morning. The air is still dry notwithstanding the condition of the elements last night and the weather indications are for continued fair tonight and tomorrow.

Up to 8 o'clock yesterday morning very little rain was reported to the government and only four stations out of seventeen in the state reported rains. It looked very much like the drought had been broken yesterday but the weather indications throw a damper on the hopes of the public.

Miss Maggie Williams, who was burned about one week ago by an accidental explosion of a lamp, was up yesterday and will be able to be out again in a few days.

## AFTER OTHER CORPORATIONS.

There is evidently trouble brewing between the city and Cumberland Telephone company. Mayor Lang and City Attorney Lightfoot were appointed recently by the council to investigate the right the telephone company and one or two other corporations doing business in Paducah, have to operate here.

Mayor Lang said this morning that so far as they had been able to learn, the telephone company has no right to do business here at all, as it has no franchise, and it is probable, although not certain, that the committee will recommend that it be required to secure a franchise, which it may do in the regular way, provided that when the franchise is sold, it is the highest bidder.

"The new constitution does not permit an unlimited grant or franchise under any circumstances, and all corporations or utilities in existence at that time had to file written agreement to the provisions of the new constitution," said the mayor.

It is claimed that the old telephone company never did this. It is also said that so far as a careful research has thus far revealed, the company is

Hicks, of the city, son of "Daddy" Hicks, the flagman, has been appointed depot master at Louisville to succeed Mr. B. J. Brown, resigned.

Supt. H. U. Wallace, of Louisville, was in the city today.

Trainmaster T. A. Banks has returned from a trip over the Evansville district.

Mr. O. J. Travis, superintendent of bridges of the I. C., of Chicago, arrived in the city this morning and left today at noon for Cumberland river, where he will inspect some bridge work being done there.

Baggage Master Flowers seems to be in the snake business as well as those employed in the yard master's department. A car load of 40,000 pounds of ice was received yesterday at the depot, from Madison, Wisconsin, and when the ice was unloaded into the storage rooms a live snake about one and a half feet long was found. The snake was alive but not very active.

It had been imprisoned in the car when it was loaded and had survived the journey from Wisconsin to Paducah. The reptile was killed soon after it was found, and is now a prized curiosity of the genial baggage master.

Mr. Keller, of the I. C. lawn department, is busy today mowing the lawn at the depot and trimming the flower beds. The drought does not seem to have affected the I. C. flower beds here, and they are just as green and pretty as ever.

Master Mechanic Barton returned from Chicago this morning.

The St. Louis Valley Railroad will make Cairo its southern terminus. Hon. W. S. Foreman, of East St. Louis, president of the company, is authority for the statement. Mr. Foreman says the line will be completed speedily and he hopes to see trains running over it in a year or eighteen months. The line will be the shortest between the two cities, with a length of 144 miles and the steepest grade is only 13 feet to the mile. The grading as far as Chester will be completed by October first, and the right of way for the rest of the way will be secured at once. The work is going on under the direction of Wm. E. Gay, who built the St. Louis, Peoria & Northern. Col. S. W. Fordyce is largely interested.

The Illinois Central never wastes time. A dispatch from Carbondale, Ill., says: Supt. Lilly, of the bridge department of the Illinois Central railroad, constructed today, in less than eight hours, the bridge on the Gale division which was burned Sunday afternoon. The bridge is over 200 feet long and forty feet high. The work was fully done, so that trains are now passing.

Mr. J. E. Morgan, the well known Illinois Central freight engineer, was badly scalded Sunday morning while preparing to go out on his run. His fireman was wetting down the coal on the tank when the hose slipped off the connection at the base of the boiler and the boiling water was thrown over Mr. Morgan's right leg. He was badly scalded from the knee on down but the burns are not of a serious nature. He was unable to go out on his run and will remain off duty for the next several days.

Mr. J. A. McCann, the Illinois Central engineer, went to Martinsville, Ind., today at noon where he will undergo the mud bath treatment for the rheumatism. Mr. McCann has been troubled by rheumatism for some time and the disease has become so troublesome that he found the above trip necessary.

Mr. Joe Bornschein, the ex-engineer, left for Louisville today at noon on business.

Annie Copeland, of South Eighth street, who has figured so prominently in police circles, attempted to end her life last night by the laudanum route. She took a large quantity of the drug about 9 o'clock last night and Dr. Hessig was summoned. He applied the stomach pump and administered an antidote and by 1 o'clock she had recovered sufficiently to say that she was despondent over her troubles with the police authorities and wanted to end it all. She is out of danger today.

## DIED IN ST. LOUIS.

A SHOEMAKER FORMERLY OF PADUCAH SOON FOLLOWS HIS WIFE TO THE GRAVE.

A telegram was this morning received from St. Louis stating that Mr. John Remke, of 1321 Franklin avenue, that place, died this morning, and the remains will be shipped here for burial, arriving tomorrow on the 7:30 a. m. train. They will be immediately buried at Oak Grove.

The deceased was about 40 years old, and well known in Paducah, having been employed for several years as a shoemaker by Mr. George Bernhard. He left the city a few years ago for St. Louis to reside, and it was only about two months ago that his wife died, and the remains were brought here and buried. His only child is also in Oak Grove.

MR. ELMUS KILE HURT WHILE ATTEMPTING TO STOP A RUN-AWAY HORSE.

Mr. Elmus Kile, the well known blacksmith, of South Third street, met with a serious accident last evening. He attempted to stop a runaway horse near Adams and Fourth street and was knocked down and run over by the animal. The wheels passed over his lower limbs and badly fractured his left leg below the knee. Dr. Rivers was summoned and dressed the injury. Mr. Kile was a former employee of the Illinois Central and has many friends who will regret to learn of the accident.

DAILY THOUGHT.

"Perhaps one of the deepest problems we have to deal with is this one—the economy of time—the holding of each day as a trust for God and the race."

A peculiar policy of the city administration is never to enact a law to prevent anything, but rather to wait until the thing is done and then have some way to punish it. This plan is followed in many things and is one of the secrets of the city's shortcomings.

When the "drain pipe ordinance" was before the council a few nights ago, City Engineer Wilcox suggested that it be so amended as to prevent people from running garbage and filthy water into the gutters through the drain pipes. The proposed change, which would have been a good one, albeit one that would cause a great many people a serious inconvenience, for the gutter is the only place many ever think of running filthy water, was rejected because it was suggested that the proper way was to specify nothing about what was to be run into the gutters, but if people drained garbage into them, and there was any one not sufficiently used to it to complain, let them get a warrant for maintaining a nuisance, and leave it to the courts to settle. On the same principal there might as well be no fire limits law, but wait until a man puts up a frame house where it would be a menace to the surrounding houses in case of fire, and then prosecute him. If the city council will not compel people to connect with the sewerage and use that as a conduit for filth, they ought at least to have enough regard for the health and safety of the multitudes, to prevent their running filth into the gutter. But under this new ordinance people can run anything they choose into the gutters.

The constitution of Kentucky, says the Louisville Commercial, provides that "not more than two counties shall be joined together to form a representative district," and yet the legislature in the act of May 3, 1893, establishing a representative district, deliberately put the three counties of Clay, Jackson and Owsley together to form the 71st representative district; the three counties of Breathitt, Lee and Magoffin to form the 92nd district; the four counties of Bell, Harlan, Leslie and Perry to form the 93rd district and the three counties of Knott, Floyd and Letcher to form the 97th district. The ratio of representation this year is 21,471. The population of the 71st legislative district, Clay, Jackson and Owsley, is 31,799. The population of the 92nd, Breathitt, Lee and Magoffin, is 34,316; the population of the 93d, composed of Bell, Harlan, Leslie and Perry, is 40,108, and the population of the 97th district, composed of Knott, Floyd and Letcher is 33,428. Butler with 15,896, and Edmonson with 10,080 are in one district and Elliott, with 10,387, is put with Carter, with 20,228 to form another; while Jessamine, with 11,925, Larue, with 10,764, Meade, with 10,553, McLean, with 12,448, Woodford with 13,134, Anderson with 10,051 and Boone, with 11,170 each, constitutes a separate district and each has a representative.

Mayor Lang may be right in his opinion of the new drain pipe ordinance. It seems, however, that the cost to property owners who were complaining that they had to pay exorbitant prices to have drain pipes replaced by paving contractors, will now be much greater. Under the old law the contractors did not have to put back the pipe. Under the new, they are compelled to put it back free of charge, and of course, to meet the additional expense of taking up and putting down the pipes, they will figure a pipe in for every twenty-five feet if they want to be sure of protection. If there doesn't happen to be a pipe where they have figured one, however, besides getting the benefit of the increase in the amount of the bid arising from such calculation, they are permitted to collect extra from the property owner. Mayor Lang seems to think that the contractors are making the complaint against the ordinance, but the contractors seem to be well pleased with it, and admit that it gives them a great advantage over the old way.

All persons in the naval service have been enjoined by the department from making public statements relative to the Schley-Sampson controversy. In issuing the order Secretary

Long made a wise move. All statements given out now can in most instances be merely opinions based on hearsay, and it were better to express no opinion at all. The whole subject will be well thrashed out in due time. Schley men who do not profess to think a fair trial will be accorded the Admiral, are injuring their cause by the expression of such doubts. Such men as they who will conduct the inquiry could not afford even were they so disposed, to withhold by any means, the justice that is due to all concerned.

The quotation in yesterday's Sun relative to the school superintendent's trouble in Knox county was inadvertently credited to the Lexington Leader, and should have been credited to the Herald. The Leader is one of the leading Republican papers in the state.

Lord Roberts, who "ended" the war in South Africa, is to receive half a million dollars for his services. A great many men would have done just as well, if not a little better, for much less than amount.

The Democratic county committee meeting was nearly as good as the Democratic county primary. But it will take a great deal of "treatment" to cure the "sore heads" between now and the election.

There may be some excuse for stealing pistols and razors, but for the man who steals a pair of trousers or clothing of any kind this kind of weather, there should be no balm in Gilead.

Nearly \$800 has been donated for the Memphis Commercial-Appeal's Schley medal. The paper announces that it will not be designed by the experts of the navy department.

The kindly spirit engendered by the Democratic harmony now existing in McCracken county will be heard from later on.

Can any man in Kentucky who gets on a little tear occasionally be justly accused of "neglecting his duty"?

\$100 REWARD, \$100.

The readers of this paper will be pleased to learn that there is at least one dreadful disease that science has been able to cure in all its stages and that is catarrh. Hall's Catarrh Cure is the only positive cure now known to the medical fraternity. Catarrh being a constitutional disease, requires a constitutional treatment. Hall's Catarrh Cure is taken internally, acting directly upon the blood and mucous surfaces of the system, thereby destroying the foundation of the disease, and giving the patient strength by building up the constitution and assisting nature in doing its work. The proprietors have so much faith in its curative powers, that they offer one hundred dollars for any case that it fails to cure. Send for list of testimonials. Address, F. J. Dr. Geo. Ewing, a practicing physician of Smith's Grove, Ky., for over thirty years, writes his personal experience with Foley's Kidney Cure. "For years I have been greatly bothered with kidney trouble and enlarged prostate gland. I used every thing known to the profession without relief, until I was induced to use FOLEY'S KIDNEY CURE. After using three bottles I was entirely relieved and cured. I prescribe it now daily in my practice and heartily recommend its use to all physicians for such troubles. For I can honestly state I have prescribed it in hundreds of cases with perfect success." J. C. Gilbert.

THE STORK EXPECTED.

Frankfort, Ky., July 1.—The fact that Governor Beckham has declined to make engagements for the near future has led to the interesting intimation that the stork is hovering over the executive mansion.

James G. Ambert, of Della, O., writes: "I had an obstinate sore on my face which everything else failed to heal. After one application of BANNER SALVE it began to heal and after three applications it was entirely healed leaving no scar." J. C. Gilbert.

DEATH OF EX-CONFEDERATES.

Memphis, Tenn., July 31.—Judge John L. T. Sneed died yesterday, aged eighty-two. He was an officer in the Mexican war, brigadier general in the provisional army of Tennessee after the secession of the state, and after the war served on the Tennessee supreme bench.

Natchez, Miss., July 31.—Captain Lyman G. Aldrich, distinguished ex-Confederate soldier, member of the executive board of control, Endowment Rank, Knights of Pythias, and a prominent Mason, died here of paralysis.

NO ACTION TAKEN.

The directors of the Masonic-Odd Fellows Building Association held another meeting yesterday afternoon, but adjourned to meet again in a few days.

Science has found that rheumatism is caused by uric acid in the blood. This poison should be excreted by the kidneys. FOLEY'S KIDNEY CURE always makes them well. J. C. Gilbert.

OOOL DAYS IN MICHIGAN.

GAN AND HOW TO ENJOY THEM.

Why stay in the sweltering heat where you are, when by a few hours travel on a fast train a delightfully cool temperature may be enjoyed with nights in which a blanket is necessary.

If you can afford to go, consider the advantages of a few weeks stay in Petoskey, Charlevoix, Traverse City, or some other of the numerous cool, delightful summer places in Michigan reached by the Pere Marquette railroad. The best train leaves Chicago at 7:30 p. m. every day except Sunday, with Pullman sleeper, and arrives at the Northern resorts early next morning. Your home agent can sell you excursion tickets to the Michigan resorts at reduced rates. Ask him about it, and get a copy of the pamphlets issued by the Pere Marquette Co., describing the various resorts, with hotel rates, etc.

If you cannot get one at home send to the Michigan Central railroad ticket agent at Chicago, or direct to H. F. Moeller, G. P. A., Detroit, Mich.

## Observations

....at Random

A perplexing question at present is "why, this great waste of heat?" It seems a pity that it could not be utilized in some way towards tempering next winter's cold. Think of the hot air that meets you as you ascend toward the second floor of your home, and utterly incomprehensible as it may seem to you now there will come a day next January when such a "warm greeting" would be the most welcome you could have. Now, when will science arrange it so that all the summer's heat can be stored up, and utilized during the coming winter? It would help us to bear these ills more gracefully if we realized we were not suffering needlessly. Who would mind the thermometer's rise to 113 or more if it would save on the coal bill next winter? Just break a bottle or so of this "sublimated heat" and you would be secured against the most chilling blast without further ado or trouble. Well, the Twentieth century before it ends, may probably show some such achievement of science, who knows? but it is a pity to have 1901 so wasted.

...

A very amusing incident occurred on a Broadway car last night. A countryman boarded the car at the river and after seating himself comfortably and taking a liberal chew of long green he began to inspect the car and its occupants. He caught sight of the new registers in the car and supposing them to be clocks pulled out his Waterbury and set it according to the register. He probably had seen few clocks and has not been the possessor of a watch long judging from the way he handled his ticker. When Sixth street was passed the conductor began to ring up the fares and with every pull the hand would spin around one notch. He probably thought he had no business on a car where they kept such peculiar clocks for he sneaked off the first time it stopped.

Pictureque Scenery Retained.

The well known spot called La Perle du Rhone in Switzerland, where the river disappears only to reappear a few yards further on, has been gradually changing its aspect. Factories and buildings have been erected on its shores. The picturesque rocks have been blasted with dynamite and the former magnificent scenery ruined.

Why Davitt is Left-Handed.

In the matter of handwriting it is interesting to know that Michael Davitt, who lost his arm in a manufacturing when he was only ten years of age, writes a singularly clear hand, only distinguishable by the superiority from the ordinary writing of people who have both hands but only use the right for writing. Mr. Davitt teaches his children to write with both right and left hands, a custom invariably followed by Japanese schools.

**THE RIVER NEWS**

Observations taken at 7 a. m. River 4.6 feet on the gauge, a fall of 0.2 in last 24 hours. Wind east, a light breeze. Weather partly cloudy, cooler. Rainfall in last 24 hours, 0.18 inches. Temperature 76. Fell. Observer.

The Joe Fowler from Evansville arrived and departed on return trip today with good business in and out.

The J. N. White is due from Dover today and will likely on her next trip go to Clarksville.

Col. Wm. Hite, president of the Louisville and Evansville Mail line steamers, will leave in a few days accompanied by his family on an extended European trip.

The Courier-Journal of yesterday says: All steamboats in the future that will be repaired at the Elizabeth marine ways will have fins attached to their rudders. The towboat Tornado and a few others have them, and it has been demonstrated that steamboats thus equipped steer better. The fin is a flat piece of steel the length of the boat's rudders, and projects out about ten inches. It gives a steamboat greater resistance and the pilots say it makes their work lighter.

Prof. Marsh says: "August, a good month of storms, heavy rains and good water in the rivers."

The City of Memphis from St. Louis passed up the Tennessee river today with a big trip of excursionists and fair freight trip.

The Tennessee is due tomorrow evening from Tennessee river.

The new towboat William McClelland passed down yesterday for St. Louis. She stopped here about an hour.

Last night we were visited with another refreshing rainfall. May the good work be continued for a few days, not too much, but just enough.

The regular every day Dick Fowler slipped cable at 8:15 this morning bound for Cairo with a good trip both in freight and folks.

There is no doubt but there will be a large representation of the river fraternity in attendance this evening at the grand opening of the New Richmond House cafe. Fine lunch and good music. Free.

The J. N. Richtman has been chartered for the excursion business at Peoria during the remainder of the summer.

If the weather is favorable this evening the excursion given by the order of Red Men on steamer City of Golconda and barge will be largely attended as there has been 300 tickets sold.

The Bob Dudley leaves here this afternoon for Clarksville. She will not be able this trip to get through to Nashville and the H. W. Buttorff is due from Clarksville. She will lay up here and probably undergo some repairs preparatory to going out under charter to the Evansville and Paducah and Cairo Packet company should the water get sufficiently low for the company to need the services of lighter boats.

The snagboat Woodruff is slowly wending her way down the Ohio doing excellent service in the way of removing snags that are hazardous to navigation between Pittsburgh and Cincinnati. The Woodruff has extracted 921 tons of snags, 20 wrecks of steamers, wharfbots, coal boats, etc., and 947 cubic yards of rocks.

Newt Robinson had an attachment made against the Dick Clyde yesterday for \$26 claimed as due for wages. The case comes up today in Justice Barber's court.

The Henry Harley puts out for Tennessee river this afternoon at 5 o'clock. She is getting a good trip of freight, also a good register of passengers. Captain Jim Till in command and Eugene Robinson in the office.

**EDITOR YENOWINE'S BURIAL.** Milwaukee, Wis., July 31.—The burial of Editor Geo. H. Yenowine took place this afternoon at Forest Home, this city, beside the remains of his first wife. Mr. Yenowine, while able to be up to two or three days ago, had been ailing for some time past. He was connected with the Evening Wisconsin in this city for many years, after which he launched Yenowine's News, a Sunday society paper. Mr. Yenowine disposed of his paper to accept a position as editor of the Sunday Louisville Courier-Journal, where he remained several years, returning to Milwaukee about a year ago. Mr. Yenowine was 46 years of age. He leaves a widow and son. He was until his departure from Kentucky, editor of the Illustrated Kentuckian, published at Louisville.

**KENTUCKY CROP SITUATION.** Sterling E. Edmunds is thus quoted in Cincinnati: "It is my opinion that the tobacco yield in Kentucky will be 70 per cent. of that of last year, despite the drought, for it takes hot weather to make heavy tobacco of fine quality, and once in the ground it is mighty hard to knock out. The yield last year was less than the average for the five previous years in Kentucky, which produces well onto 50 per cent. of the yield of the country."

Mr. Yenowine disposed of his paper to accept a position as editor of the Sunday Louisville Courier-Journal, where he remained several years, returning to Milwaukee about a year ago. Mr. Yenowine was 46 years of age. He leaves a widow and son. He was until his departure from Kentucky, editor of the Illustrated Kentuckian, published at Louisville.

**KENTUCKY CROP SITUATION.** Sterling E. Edmunds is thus quoted in Cincinnati: "It is my opinion that the tobacco yield in Kentucky will be 70 per cent. of that of last year, despite the drought, for it takes hot weather to make heavy tobacco of fine quality, and once in the ground it is mighty hard to knock out. The yield last year was less than the average for the five previous years in Kentucky, which produces well onto 50 per cent. of the yield of the country."
